Career Highlights

- Skilled in teaching and learning workshops through facilitation and moderation
- Results-driven, forward-thinking accomplished Research Scientist
- Demonstrated leadership and project management experience in private and public sectors
- Skilled quantitative analyst proficient with SQL, R and Microsoft Office
- Experienced in presentation of reports and products including wrangled data, analytics concepts and documentation from rigorously defensible definitions to implementation and evaluation
- Service-oriented team player dedicated to delivering quality services and gaining the trust of clients and stakeholders

BACHELOR OF SCIENCE

- Honors in Cell and Molecular Biology

Toronto, ON, Canada

2001-2005

Professional Experiences

BC Ministry of Health

HEALTH ECONOMIST

- Develop reproducible analytics workflows at the pharmaceutical analytics unit; generate budget impact analyses and reports for new provincial product agreements; optimize provincial laboratory testing datasets for wider research use

Victoria, BC, Canada

December 2020 - Present

BC Ministry of Health

MITACS SCIENCE POLICY AND DATA SCIENCE FELLOW

- Integrate and link health administrative datasets to inform evidence-based policy making; generate reproducible data analytics workflows; report analytic-ready objects to BC Chair for patient safety and quality council

Victoria, BC, Canada

September 2019 - November 2020

BC Ministry of Citizens' Services

MITACS SCIENCE POLICY AND DATA SCIENCE FELLOW

- Analyze and communicate complex administrative integrated data for evidence based policy making; Build and strengthen effective stakeholder relationships with ministry clients and contractors; Manage a data science project while developing and implementing timely methodologies and performance metrics

Victoria, BC, Canada

September 2018 - September 2019

University of British Columbia

Vancouver, BC, Canada

SENIOR RESEARCH FELLOW

February 2015 - February 2018

- Assemble and lead an international consortium of scientists for a genomics project, published 5 manuscripts and presented the results in 3 international conferences and 2 local symposia; Analyze and integrate genomics, transcriptomics, and proteomics datasets using R and proprietary software; Wrote and secured a \$275K operating grant from BC Cancer Foundation for next generation sequencing tumor profiling of malignant peritoneal mesothelioma

University of California, San Francisco

San Francisco, CA, USA

POSTDOCTORAL FELLOW

August 2013 - December 2014

- Design research project and conduct experiments related to liver disease with an expert team of scientists; Analyze experimental data and integrate results to generate presentations and publications; Contribute to securing a \$427K NIH grant

University of California, Berkeley

Berkeley, CA, USA

POSTDOCTORAL FELLOW

January 2012 - July 2013

- Implement a reproducible scientific workflow for a project related to aging; designed and carried out experiments with animal models for aging, analyzed results; Manage a research project with graduate students and undergraduate students towards publication in a peer-review journal

University of Toronto

Toronto, ON, Canada

TEACHING ASSISTANT AND RESEARCH CO-SUPERVISOR

September 2005 - December 2011

- Rank the top 10% among departmental teaching assistants for 500+ hours of instruction in introductory biology laboratory, cellular molecular biology, and microbiology; Create and deliver departmental lectures to 500+ students with satisfactory responses from students; Co-supervise 10 undergraduate thesis students on successful thesis projects maintaining 100% retention rate (8 students secured successful science jobs, 2 pursued graduate studies)
